

Credit Card Transaction Processing with Blackbaud Merchant Services[™]

Introducing Blackbaud Merchant Services[™], a value-added service designed to make credit card transaction processing simple, secure, and affordable for our customers.

Blackbaud Merchant Services is all-inclusive...there are no separate gateways or credit card contacts to establish. Our Blackbaud Gateway[™] safely processes all transactions in our Blackbaud Vault[™], which encrypts sensitive information to ensure that all transactions are secure. Blackbaud Merchant Services processes all types of transactions, including real-time, batch, point-of-sale, "card present," and "card not present" for Visa[®], MasterCard[®], American Express[®], and Discover[®]. And you'll have unlimited access to a secure, free portal, where you can do reconciliations, process transactions, and run or export reports.

Plus, Blackbaud Merchant Services is already built into your Blackbaud PCI-compliant software — all you have to do is sign up, create a Blackbaud Merchant Services[™] account, and make the switch. It's that easy!

HOW DOES IT WORK?
